

Cool as a cucumber, this high in veg green juice will help you glide through the morning. It is loaded with electrolytes and is super hydrating, which is very important during a Reset. Try alternating a sip of juice with a sip of water. Go with the flow.

Be Nice to you...

Take 10 minutes to yourself. Shut the office door. Lie down and put your feet up the wall, close your eyes and breathe freely. It may seem silly, but this deeply relaxing yoga pose also brings blood flow back to the heart. So you can love more.

After all, Love is all we need. ❤️⚡
